

TOTAL TRAINING™ FOR Adobe® Flash® CS4 Professional - Advanced QUICK REFERENCE GUIDE

- C1 WORKING WITH MOVIE CLIPS 43:43**
 - 1 Creating Reusable Animations with Movie Clip Symbols
 - 2 Applying & Tweening Live Filters
 - 3 Using 9-Slice Scaling
 - 4 Using the 3D Translation & 3D Rotation Tools

- C2 USING SHARED LIBRARIES 32:13**
 - 1 About Shared Libraries
 - 2 Creating a Shared Symbol
 - 3 Linking Multiple FLA Files to a Shared Symbol
 - 4 Setting Up Symbols for Runtime Sharing
 - 5 Targeting Shared Assets at Runtime from an SWF

- C3 INTRODUCTION TO ACTIONSCRIPT 3 1:00:48**
 - 1 Exploring the Actions Panel
 - 2 Creating an Actions Layer in the Timeline
 - 3 Using Stop, Play & Goto Actions
 - 4 Assigning Frame Labels
 - 5 Assigning Instance Names
 - 6 Adding a Stop Action to a Button Using an Event Handler
 - 7 Adding a Play Action to a Button Using an Event Handler
 - 8 Targeting & Controlling a Movie Clip Timeline

- C4 USING VARIABLES & CONDITIONAL LOGIC 48:29**
 - 1 Creating Variables to Store Information
 - 2 Using a Trace Statement to Track Variables
 - 3 Using Operators & Expressions
 - 4 Introducing Conditional Logic
 - 5 Testing Variables Using an If Statement

- C5 WORKING WITH DYNAMIC TEXT 51:51**
 - 1 Creating & Formatting Dynamic Text Fields
 - 2 Assigning Values to Dynamic Text Fields Using Variables
 - 3 Working with User Input Text Fields
 - 4 Changing Text with ActionScript
 - 5 Character Embedding & Anti-aliasing Techniques

- C6 ADVANCED ACTIONSCRIPT CONCEPTS 1:10:58**
 - 1 Creating an Array
 - 2 Looping through an Array & Using a Dynamic Text Field
 - 3 Adding an EventHandler & EventListener to the Add Button
 - 4 Creating a Function to Add Guests
 - 5 Adding Parameters to a Function
 - 6 Adding an EventHandler & EventListener to the Remove Button
 - 7 Creating a Function to Remove Guests
 - 8 Creating a Function to Build & Rebuild a Guest List
 - 9 Using Generic Objects to Store Data

- C7 URLS & THE URLREQUEST OBJECT 18:35**
 - 1 Making an Invisible Button
 - 2 Working with a URLRequest Object
 - 3 Using the navigateToURL Method

- C8 LOADING EXTERNAL IMAGES & TEXT 1:14:58**
 - 1 Adding a URLRequest, Loader Object & addChild Method
 - 2 Tracking the Loading Operation
 - 3 Communicating Loading Progress to the User
 - 4 Fine-tuning the Appearance of the Image
 - 5 Adding a URLLoader to Load Text-based Data
 - 6 Targeting the Data Property to Load Text & Listening for Errors
 - 7 Formatting Text Data with HTML Tags

- C9 FLASH UI COMPONENTS 1:09:51**
 - 1 Introducing Components & the Component Inspector
 - 2 Adding TextInput & CheckBox Components
 - 3 Adding ComboBox & Radio Button Components
 - 4 Adding Values to a ComboBox
 - 5 Targeting Component Properties with ActionScript
 - 6 Adding a SubmitButton Component
 - 7 Collecting Information from the SubmitButton Component
 - 8 Collecting Information from a RadioButton Group
 - 9 Credits
