

TOTAL TRAINING™ FOR WEBSITE DESIGN

EXTREME WEBSITE MAKEOVER—QUICK REFERENCE GUIDE

Part 1

1 INTRODUCTION & PROJECT BACKGROUND 10:08

- 1 Project File Overview
- 2 Identifying Ways to Improve a Website
- 3 Previewing the Finished Website

2 CREATING A COMPANY LOGO WITH ILLUSTRATOR® 24:52

- 1 Live Trace & the Tracing Options Dialog Box
- 2 Adjusting Tracing Presets, Mode & Threshold
- 3 Adjusting the Trace Settings
- 4 Converting a Tracing Object into Paths
- 5 Tracing Strokes & Changing the View
- 6 Using Live Paint to Fill an Area with Color

3 WEBSITE LAYOUT USING PHOTOSHOP® 48:56

- 1 Preparing a Web Page Mock-up in Photoshop
- 2 Creating Mock-up Navigation Buttons
- 3 Managing Assets & Working with Layer Groups
- 4 Working with Rasterized Illustrator Files
- 5 Importing & Working with Smart Objects
- 6 Working with Text
- 7 Adding Buttons to the Layout
- 8 Using Blend Modes to Add Graphic Highlights
- 9 Tidying Up Photoshop & Saving Your Project

4 MAKING SLICES WITH FIREWORKS® 46:50

- 1 Altering Some Design Issues in Photoshop
- 2 Opening a Photoshop File in Fireworks
- 3 Using the Slice Tool
- 4 Making Slices with the Selection Tool
- 5 Exporting from Fireworks into Dreamweaver
- 6 Adding More Slices to the Web Page
- 7 Renaming the Slices
- 8 Setting Up the HTML File for Export
- 9 Looking at the Images & Deleting Unused Files
- 10 Optimizing Images with the Optimize Palette
- 11 Doing a Final Clean-up Pass

5 CREATING A DREAMWEAVER® SITE 32:00

- 1 Setting Up the Site Definition
- 2 New Document & Preview in Browser Preferences
- 3 Creating a Tracing Image
- 4 Editing a Layout in Fireworks
- 5 Choosing Background Color & Alignment
- 6 Creating Multiple Pages Using a Template
- 7 Adding Content to the Pages
- 8 Modifying a Template in Expanded Mode
- 9 Linking Buttons to Pages
- 10 Saving & Updating Template-Based Files

6 CASCADING STYLE SHEETS 46:19

- 1 Introducing CSS Styles
- 2 Creating & Applying a New Class Style
- 3 Creating & Applying New Tag Styles
- 4 Removing, Finding & Replacing Styles
- 5 Duplicating, Moving & Modifying Styles
- 6 Viewing Applied Styles & Updating Changes
- 7 Creating an Advanced CSS Rule for Links
- 8 Defining Group & Combination Tag Selectors
- 9 Creating a Class Style for Text Color
- 10 Creating a Horizontal Rule to Divide Text

7 MAIN NAVIGATION SYSTEMS 47:19

- 1 Setting Up Rollover Button Images in Fireworks
- 2 Copying & Sharing Graphics across Frames
- 3 Setting Up the Rollover Behavior in Fireworks
- 4 Setting Up Pages for a Pop-up Menu
- 5 Creating a Pop-up Menu in Fireworks
- 6 Using Correct Paths, Button Styles & Special Characters
- 7 Adding Rollover Button Images to a Page
- 8 Exporting Images from Fireworks to Dreamweaver
- 9 Creating a Rollover Button in Dreamweaver
- 10 Creating an Animated GIF in Fireworks

8 DHTML LAYERS, INTERACTIVITY & FORMS 51:42

- 1 Designing Layers with CSS
- 2 Determining Table Position with CSS Rules
- 3 Integrating CSS Styles & DHTML Layers
- 4 Setting Up a Form on the Stuff Page
- 5 Adding Buttons & Checkboxes to a Form
- 6 Enabling the Form to Submit Order Data
- 7 Creating Remote Rollovers
- 8 Using the Show-Hide Layers Function
- 9 Using Tags & Behaviors to Control HTML Text
- 10 Final Comments & Credits

Part 2

1 ADVANCED GALLERY PAGES 67:58

- 1 Looking at Web Page Layers in Fireworks
- 2 Creating Slices for the Crew Images
- 3 Setting Slice Types & Optimization
- 4 Copying Images to Another Frame for Rollovers
- 5 Setting Behaviors for the Navigation Bar
- 6 Adding Simple Rollovers to the Main Menu
- 7 Exporting HTML, Images & Slices from Fireworks
- 8 Linking Slices & Putting Images on Separate Layers
- 9 Editing HTML & Attaching a Style Sheet
- 10 Building the Individual Crew Pages
- 11 Linking the Crew Pages to the Main Page
- 12 Creating a Photoshop(R) Web Photo Gallery

- 14 Incorporating the Gallery into the Website
- 15 Finishing Up the Gallery Pages in Dreamweaver

2 FLASH® ELEMENTS & FLASH VIDEO 26:32

- 1 Inserting Flash Text into Dreamweaver
- 2 Using Flash Buttons
- 3 Preparing Video in the Flash 8 Video Encoder
- 4 Advanced Flash Video Encoding Settings
- 5 Using the Insert Flash Video Dialog Box
- 6 Viewing the Inserted Flash Video in a Browser

3 MAKING FLASH® SLIDESHOWS 59:35

- 1 Starting a New Slideshow
- 2 Importing Still Image Files
- 3 Adding Text to the Slideshow
- 4 Creating Navigation Button Graphics
- 5 Converting Button Graphics to Symbols
- 6 Understanding Keyframe Properties
- 7 Adding Behaviors to Buttons
- 8 Loading the Slideshow into a Website
- 9 Using a Flash Movie as a Template
- 10 Looking at Publish Settings

4 CREATING A FLASH® BANNER AD 49:38

- 1 Setting Up to Create a Banner Ad
- 2 Designing the Banner
- 3 Adding Motion to the Banner
- 4 Adding Text Elements to the Banner
- 5 Creating & Animating Text
- 6 Animating with Motion & Shape Tweens
- 7 Adjusting the Animation for Timing
- 8 Linking the Animated Banner to the Site
- 9 Generating a Size Report & Publishing

5 MAKING A MINI FLASH® SITE 73:36

- 1 Reviewing the Site in Fireworks
- 2 Importing & Organizing Assets
- 3 Adjusting Values & Settings in an Imported Document
- 4 Converting the Layout to a Flash Movie
- 5 Creating a Flash Animation with Slides
- 6 Making More Animations Using Guides & Slides
- 7 Testing Your Flash Movie & Fixing Errors
- 8 Converting Graphics into Buttons
- 9 Applying a Behavior to a Button
- 10 Importing Video
- 11 Animating the Video
- 12 Controlling the Video with Behaviors
- 13 Adding Behaviors to Buttons
- 14 Setting up a Loader
- 15 Adding a Progress Bar
- 16 Placing the Mini Site into the Website

6 SITE TESTING & PUBLISHING 36:32

- 1 Testing a Website for Potential Problems
- 2 Adding Keywords & Description Meta Tags
- 3 Viewing the Site Map & Modifying Page Titles
- 4 Verifying Links with Check Links Sitewide Feature
- 5 Checking Source Code for Errors
- 6 Setting Up a Remote Server for Your Website
- 7 Cloaking Certain File Types to Prevent Publishing
- 8 Making Changes to a Published Website

7 WORKGROUP INTEGRATION USING CONTRIBUTE™ 20:47

- 1 Setting Up a Website for Multiple Users
- 2 Communicating through Design Notes
- 3 Creating a Connection with Contribute
- 4 Editing a Web Page in Contribute
- 5 Administering a Website

8 INCORPORATING PRINT MATERIALS 30:07

- 1 Creating a Business Card Using Web Page Graphics
- 2 Creating a Brochure Using Web Page Graphics
- 3 Adding Background & Text Colors to the Brochure
- 4 Saving the Brochure as a PDF for Printing Purposes
- 5 Saving the Brochure as a PDF for the Web
- 6 Linking the Brochure PDF to the Website
- 7 Final Comments & Credits
